Установка гостевых систем

- Alpine
- CentOS
- Ubuntu

Alpine

```
sudo apk add udev
sudo rc-update add udev sysinit
sudo rc-update add udev-trigger
sudo rc-update add udev-settle
sudo rc-update add udev-postmount
sudo apk add qemu-guest-agent
sudo rc-update add qemu-guest-agent
```

CentOS

```
sudo yum upgrade
sudo yum install qemu-guest-agent open-vm-tools rng-tools
sudo systemctl enable qemu-guest-agent
sudo systemctl start qemu-guest-agent
sudo reboot
```

Ubuntu

```
sudo apt update
sudo apt install qemu-guest-agent open-vm-tools rng-tools
sudo systemctl enable qemu-guest-agent
sudo systemctl start qemu-guest-agent
sudo reboot
```
